

# 241

 **MAIER**

## Universal Blind Stitch Sewing Machine

### Precise hemming of trousers, skirts and knitwear

Enter the world of efficiency and precision with the MAIER 241 blind stitch sewing machine! Designed to meet the demands of the garment industry, the MAIER 241 offers an unbeatable combination of reliability, performance and versatility.

With the swiveling table and a small cylinder arm, the class 241 is versatile in use. The fabric guides included as standard ensure precise guidance of the material for the seam on the hem or at the fabric edge. And the integrated interval device (1:1/1:2) gives you additional flexibility for your sewing work.

### Experience top quality in every seam

The MAIER 241 has a large working width that allows wide hem widths to be sewn with ease. And the integrated interval device (1:1/1:2) gives you additional flexibility for your sewing work.

The sewing speed of up to 3000 stitches per minute enables high productivity without compromising quality.

### Class 241-31

There is no better choice for sewing thin fabrics than MAIER subclass -31 machines!

Perfectly fitted to the needs of sewing thin fabrics. Whether silk, chiffon or other fine fabrics - our class 241-31 delivers the best results.

## Universal Blind Stitch Sewing Machine

### Options and accessories

Top equipment makes the class 241 the ideal solution for all blind hemming applications.

#### Mounting kit for motor -46

Simple installation, compact design - the mounting kit for EFKA and Ho-Hsing motors.

#### Digital stitch depth indicator -D

More efficient, accurate and simple - no more guessing stitch depth. The digital stitch depth display gives you precise control of your stitch depth. Reproducible settings and stepless adjustment.

#### Thread trimmer -12

Fast, safe and easy - the thread trimmer offers a high level of operating convenience and an impressive rationalization effect. Save valuable time with every seam.

#### Large add-on work support -35

The large add-on table offers the perfect solution for large-format sewing material. Whether curtains or other large-format sewing projects - with our add-on table you always have enough support surface.

#### Programmable electronic stitch depth setting -45/3

Up to 99 different stitch depth values can be stored and recalled individually or in programmed sequences using stepper motor technology. Stitch depth is easily changed using the knee switch or an automatic stitch count.

#### Arched swing-away table -50

The specially arched swiveling table offers improved material guidance, especially for trouser hems. If the standard table is too wide or the conventional cylinder arm does not provide enough support, this table offers optimum support and better trouser leg guidance.

#### Presserfoot lift -PFL/P

Making work easier! The pneumatic presser foot lift makes sewing much easier. Simply press the foot pedal and the presser foot lowers. You can concentrate fully on your sewing work.

#### Sewing light -LED

Our high-quality LED sewing light provides bright, even light directly above your sewing area. No more tedious squinting or shadow play - with our light you always have the best view of your sewing project.
