

261

For thick and heavy material

 MAIER

Our special model for special applications

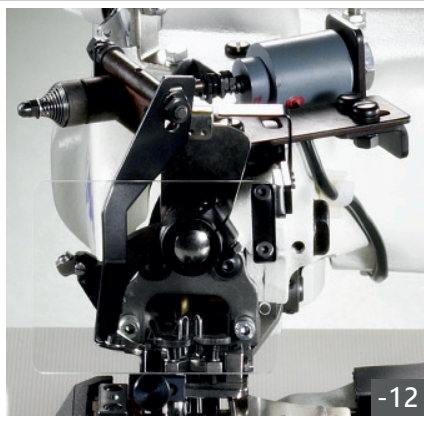

Discover our MAIER 261 - a special model developed exclusively for processing particularly thick and heavy material as well as strong cross seams! This machine is perfect for a wide range of applications, including women's, men's and sportswear, curtains, quilts, wetsuits and even the upholstery of straps on car seats.

The outstanding feature of the MAIER 261 is the lowered bearing plate, which provides an increased clearance height to handle even the most demanding fabrics. In addition, the stitch plate, feed dog and presser feet are specially designed for thick fabrics. Spring-loaded plunger, swiveling table and a cylinder arm makes the class 261 suitable for a wide range of sewing applications.

Options and accessories

Top equipment makes the Class 261 the ideal solution for special blind stitch applications.

Mounting kit for motor -46

Simple installation, compact design - the mounting kit for EFKA and Ho-Hsing motors.

Thread trimmer -12

Fast, safe and easy - the thread trimmer offers a high level of operating convenience and an impressive rationalization effect. Save valuable time with every seam.

Large add-on work support -35

The large add-on table offers the perfect solution for large-format sewing material. Whether curtains or other large-format sewing projects - with our add-on table you always have enough support surface.

Presserfoot lift -PFL/P

Making work easier! The pneumatic presser foot lift makes sewing much easier. Simply press the foot pedal and the presser foot lowers. You can concentrate fully on your sewing work.

Sewing light -LED

Our high-quality LED sewing light provides bright, even light directly above your sewing area. No more tedious squinting or shadow play - with our light you always have the best view of your sewing project.
