 **MAIER**

## Universal Blind Stitch Sewing Machine

### Precise hemming of trousers, skirts and blouses

Enter the world of efficiency and precision with the MAIER 271 blind stitch sewing machine! Designed to meet the demands of the garment industry, the MAIER 271 offers an unbeatable combination of reliability, performance and versatility.

With the swiveling table and a small cylinder arm, the class 271 is versatile in use. The fabric guides included as standard ensure precise guidance of the material for the seam on the hem or at the fabric edge. And the integrated interval device (1:1/1:2) gives you additional flexibility for your sewing work.

Thanks to the spring-loaded plunger, the MAIER 271 automatically adapts the plunger height to the thickness of the fabric. For cross seams, the plunger is pressed down so that the needle only stitches the upper layers of the fabric. With three spring strengths supplied as standard, the spring force of the plunger can be adapted to the material.

The result? No unsightly marks on the outside caused by through stitches or thread tension marks.

### Experience top quality in every seam

With its compact and vibration-free design, you can rely on a globally proven machine that ensures maximum precision with every stitch. The sewing speed of up to 3000 stitches per minute enables high productivity without compromising quality.

### Class 271-31

There is no better choice for sewing thin fabrics than MAIER subclass -31 machines!

Perfectly fitted to the needs of sewing thin fabrics. Whether silk, chiffon or other fine fabrics - our class 271-31 delivers the best results.

## Universal Blind Stitch Sewing Machine

### Options and accessories

-46

Top equipment makes the class 271 the ideal solution for all blind hemming applications.

#### Mounting kit for motor -46

Simple installation, compact design - the mounting kit for EFKA and Ho-Hsing motors.

-D

#### Digital stitch depth indicator -D

More efficient, accurate and simple - no more guessing stitch depth. The digital stitch depth display gives you precise control of your stitch depth. Reproducible settings and stepless adjustment.

#### Thread trimmer -12

Fast, safe and easy - the thread trimmer offers a high level of operating convenience and an impressive rationalization effect. Save valuable time with every seam.

-12

#### Condensed stitches -30/2

Short stitches and increased thread tension at the seam end make it more difficult to unravel the seam.

#### Presserfoot lift -PFL/P

Making work easier! The pneumatic presser foot lift makes sewing much easier. Simply press the foot pedal and the presser foot lowers. You can concentrate fully on your sewing work.

#### Sewing light -LED

Our high-quality LED sewing light provides bright, even light directly above your sewing area. No more tedious squinting or shadow play - with our light you always have the best view of your sewing project.

#### Skip stitch device -1:3

Instead of penetration into the outer fabric layer with every stitch or every second stitch, our -1:3 option allows you to penetrate only every third stitch. The result? Fewer marks and a looser stitch.

#### Technical Specifications

Stitch description	Single-thread chainstitch
Stitch type	103
Maximum Speed	3000 rpm
Recommended Speed	2200 rpm
Stitch length	3-8 mm, adjustable
Needle System	251EU
Cylinder circumference	18 cm
Work width	6 cm

#### Packing dimensions head only

Carton 62x45x36 cm  
Gross 17,5 kg  
Net 13,0 kg

#### Packing dimensions complete machine

Pallet 110x58x120 cm  
Gross 75,0 kg / Net 60,0 kg  
Volume weight 117 kg
